| CHAIR HEIGHT | $12^{\prime \prime}$ | $14^{\prime \prime}$ | $16^{\prime \prime}$ | $18^{\prime \prime}$ |
| :--- | :---: | :---: | :---: | :---: |
| TABLE HEIGHT | $19^{\prime \prime}-20^{\prime \prime}$ | $22^{\prime \prime}-24^{\prime \prime}$ | $25^{\prime \prime}-27^{\prime \prime}$ | $29^{\prime \prime}-30^{\prime \prime}$ |

| 3-4 YEAR OLD | $50 \%$ | $50 \%$ |  |  |
| :--- | :---: | :---: | :---: | :---: |
| KINDERGARTEN | $25 \%$ | $75 \%$ |  |  |
| GRADE 1 |  | $100 \%$ |  |  |
| GRADE 2 |  | $25 \%$ | $75 \%$ |  |
| GRADE 3-4 |  |  | $100 \%$ |  |
| GRADE 5 |  |  | $50 \%$ | $50 \%$ |
| GRADE 6-12 |  |  | $100 \%$ |  |

This Sizing Chart is a simple tool to determine the correct heights of tables and chairs by grade level. The first two rows show a good general relationship between chair height and table height.

The following rows show recommended distributions of sizes by grade level from Pre-K through 12.

For example; reading across for Grade 2, roughly $25 \%$ of the chairs should be 14 " high, with tables being 22-24" high. The remaining $75 \%$ should be 16 " chairs with tables at $25-27$ ".

Allied desks and tables adjust in 1 inch increments to allow correct sizing to fit chairs and students at all grade levels.
