Model: ACMSS30CLOVER48S

Modular solutions with built-in mobility to grow with you. Allied Caseworks offers the most creative and flexible options for utilizing every inch of space.

Caseworks Mobile Science Station

Features:

- Innovative modular mobile work solutions
- Premium hardware for long-term reliability
- Custom finishes to let you design your way
- Design build options available for project orders
- Best in industry lead times
- Choose open shelves or lockable doors and drawers
- Optional Phenolic or Dry Erase tops available

Specifications

Work Surface: 1¼" Thick 45 lb. density particleboard with phenolic backer. Long-life high pressure laminate (HPL) surface. 3mm PVC edge with ⅛" radius edges. Heights: 30, 36 or 42 inch.

Casters: 4" casters are mounted to bottom through a steel plate and secured through top.

Cabinet Bases: ¾" Thick particleboard with high pressure or thermally fused laminate throughout. Cabinets assembled using dowel and glue joinery.

Cabinet Doors & Shelves: ¾" Thick 3-ply engineered wood with high pressure laminate faces. Exposed edges trimmed with 3mm PVC. Shelves adjust in 1¼" increments.

Door Hardware: Fully-adjustable concealed hinges or fixed exposed hinges. Handles available in designer or loop pulls. Door lock options include individual or matching key (lock-alike).

Full 4-Sided Drawer Boxes: Steel side-mount ball bearing drawer glides and metal drawer sides. Hold-in detent ensures drawers stay closed. Lever disconnect for easy drawer removal.

Laminate Finishes: Available in standard Wilsonart or Formica colors for project orders.
