Mobile Science Cart

Artisan Wood Science Cart

Allied Mobile Science Cart

The Allied Mobile Demo Cart gives you the freedom of mobility in today's active classrooms. Easily converts to an additional workstation by setting the brakes on the casters. The Chemsurf chemically-resistant top and shelf resist damage from spills and heat, while the solid hardwood legs and frame are built for years of stability and safety.

Features

- Eco-friendly Parawood construction
- Chemically-resistant Chemsurf work surface
- Heavy duty locking swivel casters.
- Premium Twin-Bolt leg fastening system
- Superior stability and wobble resistance

Specifications

Work Surface: 1¼" thick, 45 lb. density particleboard with premium scratch and stain resistant high pressure laminate (HPL) surface with form fitting vinyl edge banding. Backer sheet for balanced construction.

Frame Construction:

- Solid Parawood hardwood
- ¾ x 5" wide solid apron
- 2½" Square hardwood legs
- Premium Twin-Bolt leg fastening system
